What's Happening in 5th Grade?

English/Language Arts/Reading: In reading, will continue to review a variety of texts and genres. Please be sure your child is reading daily! In writing, we will write scientific texts, reviewing concepts for the upcoming STAAR test. Ask your child about what he/she is writing about!

Math: In math students are continuing to work on various math projects for approximately two more weeks. These projects are strengthening previously taught math skills. Afterwards, students will begin previewing sixth grade math skills when we return to our Pearson textbook and complete the final topic: Stepping Up to 6th Grade.

Science: In science we are reviewing every topic because of our Science STAAR on May 11th. Please review with your child their notes.

Social Studies: In social studies, we will be studying life during the Civil War. We will examine the roles of women, African Americans in the war, and the job of a soldier. We will spend time looking at the strategies of the North and the South, followed by focusing on important battles.
