## What's Happening in 5th Grade?

**English/Language Arts/Reading:** After learning about figurative language

(metaphors, personification, hyperbole, and similes), we will be launching our poetry unit! Students will be reading and writing various types of poems that include personification, alliteration, two voice poems, free verse, rhyme and more!

**Math:** We will be wrapping up our study of Topic 7: Adding and Subtracting

Fractions-be sure to ask your child how they performed on the test. Then we will be moving on to Topic 8: Adding and Subtracting Mixed Numbers. Students will be asked to represent and solve addition and subtraction of fractions with equal and unequal denominators.

**Science:** We are wrapping up our unit of Force, Motion, and Energy and will

be starting our Matter Unit right after the Thanksgiving Break. I know Mrs. Martinez loves the Matter Unit because it relates to every unit we have in Science!

**Social Studies:** In social studies, we will be testing over life, economics and geography of the 13 colonies and European exploration. We will study events in the colonies that lead to the French and Indian War.
