What's Happening in 5th Grade?

English/Language Arts/Reading: We are finishing up our nonfiction unit and will be launching our poetry unit. Students will be reading and writing various types of poems that include personification, alliteration, two voice poems, free verse, rhyme and more!

Math: Over the next two weeks in math we will be wrapping up our study of dividing decimals. Be sure to ask your child how they performed on the Topic 6 Unit Assessment. Then we will move into our study of fractions. We will begin this unit with addition and subtraction of fractions in which students will be asked to represent and solve addition and subtraction of fractions with equal and unequal denominators.

Science: We have begun our unit on Force, Motion, and Energy. We will be exploring light, sound, and thermal energy over the next two weeks.

Social Studies: We will be learning about the thirteen colonies in order to understand when, where, and why groups of people explored, colonized, and settled in the United States, including the search for religious freedom and economic gain.
